CALL TO THE PUBLIC POLICY - ADOPTED ON 08/25/2022

Marion Township Public Participation at Township Board Meetings Policy

The Public shall be given an opportunity to be heard at every Township Board Meeting following this Policy adopted by the Township Board.

The Township Supervisor is the moderator of the meeting. In the absence of the Supervisor, the Township Clerk shall hold an election of the Board Members present to select a moderator for the meeting.

Anyone attending the meeting either in-person or on-line may speak during the "Call to the Public" part of the meeting. To preserve order, those attending in-person will speak first. When all in-person attendees have been heard, the moderator will ask if any on-line attendee wishes to speak.

When recognized by the moderator, in-person attendees shall come to the podium. The moderator will request that they give their name and address before they begin their comments.

When all in-person attendees have finished speaking, the moderator will ask if anyone attending the meeting on-line wishes to speak. On-line attendees may unmute themselves and when recognized by the moderator may speak. On-line attendees will also be asked for their name and address.

All comments shall be addressed to the Township Board. The "Call to the Public" is for attendees to provide information or opinions to the Township Board and is not intended to be a dialog. Anyone needing a response should contact officials or staff during working hours.

To preserve efficiency, speakers will be asked to keep their comments to five minutes or less.

On some occasions, attendees may be asked for comments during agenda items.

Re: Coon Lake Road

Dear Mr. Fenton:

Per your request, we are providing you with an estimate for improvements to the portion of Coon Lake Road, Pingree to Dutcher (approximately 1,600 feet). The following list is a breakdown of the items involved in this proposed project.

1. Trim and remove trees. This will take approximately one day with a tree subcontractor.
2. Clean existing roads edge, ditches and restore drainage. This will take approximately one day with a grader, excavator, two dump trucks.
3. Install approximately 1,000 tons of 22A gravel to the road surface. This will take approximately two days with a grader, roller, and water truck.
4. Provide 1,000 gallons of mineral well brine the new gravel surface for dust control.
5. The total cost for the project will be \$46,000.00

Please review the above estimate and contact me if you wish to have a contract prepared for this project. If you have any questions, please do not hesitate to contact Vinnie Dahlberg or me.

Sincerely,

Trevor Bennett
Director of Operations

Citizen Planner Course

In collaboration with MSU Extension, the Livingston County Planning Department hosted an in-person Citizen Planner Course. The event was highly successful, attracting over 40 participants. Each evening featured new lessons accompanied by scenario exercises designed to enhance skills in meeting management, planning and zoning knowledge, as well as understanding the roles and responsibilities of elected and appointed officials.

A special thank you to lead instructor Harmony Fierke-Gmazel and fellow instructors Julia Darnton and Eric Warman for providing a special interactive learning experience for Livingston County.

LIVINGSTON COUNTY BROWN BAG LUNCH SERIES PRESENTS:

**"Protecting Your Community
From State Gravel-Extraction
Industry Preemption Under
Michigan Public Act 113"**

**What Your
Community Needs
to Do Now!**

Please join us for this very important presentation you will not want to miss regarding the real threat to your community's strong local regulatory control policies over gravel and extractive industries posed by the State through Public Act 113 (MCL 125.3205(3)–(7)).

It is a special honor to have Mr. Gerald Fisher, Attorney with Fisher Consulting, join us to provide an overview of the state legislature's passage of PA 113, which gives the deep-pocket gravel industry-favored consideration over all other land uses and takes control away from local officials and residents who may oppose such activity in their community. Mr. Fisher is uniquely qualified and has consulted and authored sound, practical legal solutions for local municipalities for decades that your community can implement to head off this serious State overreach.

This session is not to be missed!

WHEN: Tuesday, April 29th, 12:00-1:00 PM

WHERE: Oceola Township Hall, 1577 North Latson Road, Howell, MI

WHO: Mr. Gerald Fisher, Fisher Consulting - Attorney and Author of: *"Local Government Law: A Practical Guidebook for Public Officials on City Councils, Community Boards, and Planning Commissions"* (2021).

RSVP Appreciated: rstanford@livgov.com

Welcome Back!

Planning Department Intern: Abby Carrigan

Abby will be rejoining the Livingston County Planning Department this Summer for a Planning Internship. Last year she was instrumental in drafting the recently released 2025 Agricultural Plan (featured below).

Abby is a student at Michigan State University's Honors College studying Social Relations & Policy, Sustainable Agriculture & Food Systems, Environmental Public Health, and Human Geography. She is also a resident of Livingston County and a 2022 graduate of Fenton High School. This spring, she's excited to return to the Planning Department to support projects that align with her passion for sustainable land use and community-driven development.

2025 Sustainable Agricultural, Food Systems and Rural Environments Plan

The [Livingston County 2025 Sustainable Agriculture, Food Systems & Rural Environments Plan](#) serves as a vital guide for communities to aid in agricultural preservation. This comprehensive plan includes valuable insights about local farming systems and emphasizes the necessity of safeguarding them to maintain access to local food sources.

The plan focuses on key areas such as farmer support, soil and water stewardship, localizing food system infrastructure, and farmland preservation.

Key aspects of the plan will be incorporated into the Planning Department's 2025 Livingston County Master Plan. Residents can stay updated on the progress of the County Master Plan at:

Fillmore County Park

One of the roles of the Planning Department is to facilitate the Livingston County Parks and Open Space Advisory Committee. The committee continues to collaborate with the [Motor City Mountain Bike Association](#) (MCMBA) to create a mountain bike trail on the west side of Kellogg Road, next to the existing Fillmore Park entrance. The first loop is anticipated to open this fall; visitors will be able to enjoy a short 1 mile trail. Over time, the MCMBA will expand the trail system and eventually build a skills course to enhance riders' abilities. The mountain bike trail will be ideal for beginners and younger riders. Keep an eye out for upcoming opportunities to get involved.
